

=== Weekly Individual Report (Team 12: Capsule) ===

Name: Nathan Schneider

Week 5 (Summary)

3/21/24	3 hrs		Setup and integrated AWS S3 bucket
3/21/24	4 hrs	8682dee	Functionality to select a photo on “set profile picture” and then send that photo to the S3 bucket. Returns a URL to the photo.
3/21/24	3 hrs	c19d29f	Photo to the URL is only active for 10 minutes so reworked code to instead return an encrypted key that can then be used to retrieve the photo URL from S3
3/21/24	2 hrs	87e75cf	Set the profile picture URL to be retrieved when first logged in. Fixed issues with image properly loading and updating quickly after selection.

Week 6 (Planning)

3/26/24	4 hrs		Fix profile picture selection on registration and fix the delete account button to properly remove photos from the S3 bucket.
3/28/24	3 hrs		Write some helper functions for storing photo keys in the mongoDB and rework some of the mongo fields
3/30/24	3 hrs		Work on the front end functionality for enlarging photos and generating the capsule at the end of the month.
