2/24/24	6 Hours	0e75534	Researched UI packages and created UI mockups in sketch and started a draft of a new UI
2/25/24	4 Hours	ef8e843	Created Profile Page

Week 3 (Plan) (Scrum master: Nathan Schneider)

[Meetings]

2/27 Walk through all new implementations on the main branch and get everyone's opinion on the project's functionality and look. Make sure the code is runnable locally on everyone's computer.

2/29 Discuss progress from the week and work on the project together. Also prepare for the sprint review.

[Individual Goals]

Nathan: Integrate refresh functionality throughout the app and debug the friend page

Peter: Work on page styling and create testing criteria.

Kevin: Setup the login with instagram page, link the instagram API, and store relevant information in the MongoDB

Evan: Work on styling for the profile page, friend page, home page, and history page.
